

# Service Definition of SWAMID

## General description of SAML2 WebSSO

The service provides authentication of users which have an electronic identity at RISE, together with release of attributes pertaining to the authenticated user. The provider of the service/higher educational institution is a member of SWAMID, the Swedish identity federation for Research and higher education. The service has been deployed in accordance with SWAMID's policy framework.

## Policy for personal integrity

The service adheres to the policy for the handling of personal data (<https://www.ri.se/en/about-ri/sustainability/policy-documents/personal-data-processing/processing-of-personal-data-4>) which has been published by RISE in accordance with Swedish law.

## The service and limitations of service

RISE undertakes to guarantee the availability of the service in accordance with RISE's requirements and expectations. RISE follows SWAMID's recommendations for release of attributes based upon entity categories. RISE reserves the right, in agreement with a service provider, to change the actually released attributes for the current service, regardless of what is recommended by the entity category for which the service provider is approved.

## Service and support

Questions and faults regarding RISE and its SAML2 WebSSO service should be directed to the following local support channels:
